What is SchoolsPlus?

SchoolsPlus seeks to improve the collaboration and coordination of programs and services for children, youth, and their families.

The main goal is to bridge the gap between various community organizations and the school by connecting students and families with services.

Programming

SchoolsPlus, in partnership with a variety of government and community organizations, provides support and programming to youth and their families. Programs take place during the school year as well as throughout the summer.

Programs supported by SchoolsPlus include March Break Fun Days, X-Chem Science Camps, Control the Volcano, and more.

How Do I Access SchoolsPlus?

Referrals for individual direct service may come from school program planning teams as well as other service providers. Students and families may also self refer.

After the referral is received, an intake and consent form are completed by the SchoolsPlus Facilitator. Complex cases may require a Comprehensive Service Plan where appropriate agencies are invited to a case conference meeting.

"The programs and the support you (SchoolsPlus) provide are very respected."
